PRODUCT DESCRIPTION

Punch Drinks is a new age drinks manufacturer, which is based in Tallinn, Estonia. Our production methods combine science with mixology, which allows us to capture virtually every flavour possible. In our highly secret cocktail laboratory, we craft experiences and flavours which take form in our organic beverages and gin cocktails. Our drinks are made from natural infusions - meaning we use real plants, spices and herbs to craft our beverages and cocktails. We do not use any artificial flavouring or preservatives.

Gin cocktail infused with black tea, orange peels, lemongrass and cornflower. This was our first cocktail ever and it has become one of our bestsellers. Our signature cocktail where we infused our craft gin with Italian orange peels, black tea, lemongrass and blue cornflower. A little sweet, just enough sour with a twist of bitter. We recommend to serve with two cubes of ice, slice of orange a dash of extra confidence.
